

Fury In The Slaughterhouse, I Feel Fine

My dad says i a hopeless case
And that he lost all his faith in me
and i willl never be the one
My mother says i a hopeless case
And i know she means it many ways
but i can only state my case
i can only state my line
that
i feel fine
As long as i remember all of you
And all the things you want me to do

My brother complains i a hopeless case
cause i don like the game he plays with me
- thought it was plain to see
my shrink claims i a hopeless case
and that i have to take all these pills
cause they help me to feel fine
and will bring me back on line
but hey
i feel fine
As long as i remember all of you
And all the things you want me to do

the world might say i a hopeless case
and no one should daydream all these days
but i can only state my case
can just repeat my line
i feel fine
As long as i remember all of you
And all the things you want me to do
