

# Future, Hallucinating

Astronaut  
Yeah yeah

I seduce you with this Aston Martin  
I bought today  
Oh, you done did more drugs than me?  
You must be hallucinating  
Oh, you did more percs than me?  
Then you must be hallucinating  
Don't menace over these Vicodins, you must've seen Satan  
I seduce you with this Rolls Royce truck that's on the way  
Chanel is on the invoice, I had bought the store today  
That bitch get on my nerves, man  
I had to send her out to St. Tropez  
Oh you done blow more checks than me, boy?  
Then you got to be hallucinating

I'm a young nigga with this check and I fuck it up  
The freshest thing that I ever bought was that Bentley truck

I could turn a stripper to a diva  
Chinchilla on her, that's a PETA  
Shawty light the gun like Bonita  
Rockstars goin' like the Beatles  
I took styrofoams to the meeting  
Three cellphones when you greet me  
Got a bitch waiting in the lounge  
I done had to move a few pounds

Looking at my chain, don't drown  
Andy put the diamonds in his mouth  
All bad bitches pop out  
When a nigga steppin' out the house  
Every day we walk the red carpet  
Every day one of my hoes fallin' in love

I seduce you with this Aston Martin  
I bought today  
Oh, you done did more drugs than me?  
You must be hallucinating

The freshest thing that I ever bought was that Bentley truck

All I do is pop more bottles and give 'em to you  
All they ever do is bring more problems than listen to  
My chains, my ring gon' bling, they do all the seducin'  
I was kickin' shit with yo' bitch, she did all of the choosin'

Looking at my chain, don't drown  
Andy put the diamonds in his mouth  
All bad bitches pop out  
When a nigga steppin' out the house

It's a lot weighin' on my shoulders  
I ain't ever gon' fold up  
I had turbo'd off my motor  
I was pushin' boulders  
I gave you some closure when I bought the Rover
