

# Future, Parachute (feat. R. Kelly)

Check her out she hella  
Somebody outta tell her  
Her ass got a voice  
And she sing acapella  
I can be the music, pumping in her background  
I can make her lose it, and find it in Chi Town  
Club of america, legs so tall  
I stepped out america  
Call it awol  
Bitch I am a go getter  
That hooks forever  
Know ya'll heard that 12 play  
That hooks forever  
Be the parachute cause I'm falling for that pussy  
Be the flashlight cause I'm deep of in that pussy  
I been round here, better look round here  
Young fella, they call me the king round here  
And now I got my voice back, listen round here  
I'm the shit, y'all niggas just smell round here  
Got them chicks flipping for me, best friends kissing for me  
Ay magic city in the back room stripping for me  
Your man is like nextel  
Soon gone  
Girl you can always call on me  
Apple phone

Falling (For You) [x4]

Space rocket, we outta here  
You compliment my mojo  
You stroking on my ego  
You wanna go to pluto  
And make movies everyday of your life

Something bout them lashes girl  
That really compliments your eyes  
There's something about them fishnets girl  
That's hugging yet revealing your thighs

Winding winding winding I see you grinding  
Overnight, one night with me and now we shining
