

# Future, Trance

You put me in a trance girl you put me in a  
You put me in a trance girl you put me in a trance  
Girl you put me in a trance  
And I don't understand what happened to me girl  
I just wanna be one of your friends  
And I don't have to hug you  
Long as I get to hold your hand  
And don't try to figure out what it is  
Baby it's the way you stand

You got me in a trance girl you got me in a trance  
Yeah you got me in a trance  
I don't know what got into me  
Ever since I seen you think you put me out my misery  
I'm not concerned with your companion or your history  
Cause everytime we're together, I feel the chemistry  
I touch your hand, I touch your heart and I might touch your mind  
You can't deny the feeling that you're feeling when it's right  
I tried to fight it, tried to hide it, swear I tried denying it  
Don't have to be with you girl I just wanna stand beside you  
You compliment my style, you compliment my whole...  
You motivate me in so many ways, I keep on grinding  
You shining like a star, you looking like some real diamonds  
The way you make me feel I wanna buy you real diamonds

Hey, you put me in a trance, you put me in a  
You put me in a trance  
You put me in a trance, boy you put me in a trance  
You put me in a trance  
And I don't understand what it happened to me  
I just wanna be one of your friends  
And when I put it on you, bet I make you come again

She got too much love potential  
She could be the valuest thing ever touched this earth  
If she keep me on her temper, she pray for me every single day  
During she not at church  
I need a friend like you, I would do anything for you  
You have this... about yourself that seem to jump on peop  
And if you have a man, he would be a fool to leave you  
I'm like your biggest fan when I met you how can I... you  
I know I rap up for you, I be in our...  
I know I trap, I take that dirty money and I clean them  
And it ain't this about me girl you know we...  
You not a cheater, but sometimes the way I need ya  
I haven't seen in you in 2 weeks  
It's been so hard in through these days  
And if you ever feeling weak, let's go somewhere, run away  
And if you ever feeling weak, I make you stronger everyday  
And I just wanna see you smiling, and I'm willing do whatever it gonn take

Hey, you put me in a trance, you put me in a  
You put me in a trance  
You put me in a trance, boy you put me in a trance  
You put me in a trance  
And I don't understand what it happened to me  
I just wanna be one of your friends  
And when I put it on you, bet I make you come again
