

Future, Voodoo (feat. Kodak Black)

I dance with the devil so long, she pulling me closer
Sleeping with demons, how they get there? She invited them over
And he came in, girl, so pretty I fell for it, it felt like I known her
I pray to the angels but the devil is stronger
Wonder why I'm in hell, still? Nobody's nice, nobody cares here
I tried to break free, she wouldn't let me
She say that I'm wasting my time, thinking I'm going to heaven
'Cause all my blessings she telling me, she the one who sinnin' (808 Mafia)

Made it out of that ranch, got to feel my rage, truck driver done made me
And ambition saved me, hold up on the pavement
Ain't going outside like Jose Canseco, I up my status
Had to crease in the Honda to get me pesos, I was on the block with the Yayo, never had much elb
With a fine bitch, she's slutty, got stars in this, it's a shuttle
Get nauseous from the deserts, she give me sloppy on another level
Foreign crossfit, I'm getting healthy, bitch moshpittin' at the devil
He live marvelous, she get a deputy, keep a short stick and a duffle
Tryna' flex on her showing muscles, hide the definition of cuddles
I was presidential, more bullets, feel played 'bout it, get the Trippie
I'm with the Cartel everytime I re-up
On the plane by the runway, that's how they greet us
Getting it Grande from Sunday to Sunday
I knew I'd be the plug one day
This money like a drug, devil so pretty can't touch it without the gloves
Money machine clickin' give me a rush

I dance with the devil so long, she pulling me closer
Sleeping with demons, how they get there? She invited them over
And he came in, girl, so pretty I fell for it, it felt like I known her
I pray to the angels but the devil is stronger
Wonder why I'm in hell, still? Nobody's nice, nobody cares here
I tried to break free, she wouldn't let me
She say that I'm wasting my time, thinking I'm going to heaven
'Cause all my blessings she telling me, she the one who sinnin'

Devil on my left, devil on my right
It's hard for me to go, I've been fighting for my life
People threw a test, threw it at us right
It get harder for me to find some peace at night

I dance with the devil so long, she pulling me closer
Sleeping with demons, how they get there? She invited them over
And he came in, girl, so pretty I fell for it, it felt like I known her
I pray to the angels but the devil is stronger
Wonder why I'm in hell, still? Nobody's nice, nobody cares here
I tried to break free, she wouldn't let me
She say that I'm wasting my time, thinking I'm going to heaven
'Cause all my blessings she telling me, she the one who sinnin'
