

G-Eazy, Saw It Coming (feat. Jeremih)

Yo Jeremih
Jeremih

I.

My whole life I've been written off
Like a sick kid who's spitting cough
Now it's all changed I blew up, I'm lifting off
The whole time I just been cut from different cloth
This is Cashmere, is that clear?
Catching paper cuts from the paper I've counted the past year
A monster, a beast, except I'm nastier
Swift you need a favor, then put your cash here
From the wood works now they all call
But I'm in a different league, they're playing small ball
I ball through the summer, the winter and all fall
So if they never saw it coming, I'm telling them all, nah

Creatures like us, can't be alone
Creatures like us, we freak
Something's got you up all night
So tell me who you're gonna call
I bet you never saw it coming
I bet you never saw it coming
Someone's gotta make it right
Now tell me who you're gonna call
I bet you never saw it coming
I bet you never saw it coming
Never saw it coming

II* soon

Creatures like us, can't be alone
Creatures like us, we freak
Something's got you up all night
So tell me who you're gonna call
I bet you never saw it coming
I bet you never saw it coming
Someone's gotta make it right
Now tell me who you're gonna call
I bet you never saw it coming
I bet you never saw it coming
Never saw it coming
