

# G. LOVE & SPECIAL SAUCE, Willow Tree

Let me be your weeping willow tree  
Surround you with my long limbs  
My dear, Let me grow in the shade  
In the sands by the bank of your river  
Let I drink from your streams  
The cool breeze fill my leaves  
We will sing together  
Water over the pebbles  
And I'll be by your side forever  
I wish I was a weeping willow tree  
I wish I was a weeping willow tree  
I wish I was a weeping willow tree  
Sweet river caress how softly  
Stir my searching roots  
Shading the sun in the summers heat  
Let I cool you  
We have been dancing so long  
In the winters freeze and the summers drought  
We survive  
We belong  
Let us sing together  
Water over the pebbles  
And I'll be by your side forever  
I wish I was your weeping willow tree  
I wish I was a weeping willow tree  
I wish I was a weeping willow tree  
Let us sing together  
Water over the pebbles  
And I'll be by your side forever  
Let us sing together  
Water over the pebbles  
And I'll be by your side forever  
We can sing together  
Water over the pebbles  
And I'll be by your side forever  
Let me be  
Your willow tree  
Your willow tree
