

Gabe Lopez, Automatic

Just one of our songs comes on,
And youre here in my mind,
Just passing your picture and you come back,
When I close my eyes,

I can be fine somewhere else as I drive,
Then I pass where we first met,
I can be cool thinking Im over you,
But then something reminds me not yet.

Chorus:
Its automatic when I think of you,
Its automatic what it puts me through,
If Im an addict then my drug is you,
Its automatic,
Automatic.

Just one of my lines comes out,
And the truth comes out about you,
I tried looking for someone new,
But when I do Im never amused.

I can be out with all my friends just about,
And someone says your name and I start to change,
What had been weightless suddenly is stressed,
And the smile falls from my face.

Chorus

I cant let you go, I have no control,
Youre a habit that I cant break,
When is it enough?
When do I give up?
Is there something that its gonna take?

Chorus

Dont you know what you put in my heart?
Dont you know that youve torn me apart?
Dont you know I would shake you if I could?
But Ive tried cant you tell its no good?

Chorus
