

Gabe Lopez, Far Too Deep

I close my eyes and breathe in deep,
I take a sigh cause I cant sleep,
A thousand times in my mind Ive said goodbye,
Conversations in my head of words unsaid.

Chorus:

But you wont disappear like youre supposed to,
Youre much too sincere to let me let go of you,
When I try to walk away you pull me,
Im far too deep.

I fake a smile and hide behind it,
Been practicing a while so you wont see this,
A thousand times in my mind Ive said goodbye,
But each time I try to leave you say the right things.

Chorus

I dont want to run from you because you say you love me, too,
But when you go with someone new,
I cant take that,
No, I cant take that.

Chorus

And you dont listen, do you, to what they tell you?
Theres something missing here because I know you,
When I try to turn away you touch me,
Im far too deep.

Im far too deep,
Im far too deep,
You cant help me,
Im far too deep
