

# Gabriel Rios, Let It Go

That's how it feels  
when she comes to you real  
And your fingers grow wild  
like the mind of a child  
Get in and get dreams  
but you burst at the seams  
And your dreams all get rough  
cause you can't get enough  
In this black coal diamond world  
filled with brave little men  
don't get caught in the trend  
of living life at the end  
A true heart is not enough  
so don't run with what you been stealing  
cause you'll be giving it up  
(chorus)  
When it's gone  
Don't hold on  
Let it go  
and you will see that  
the stuff you are made of  
and what you think is dying  
is worlds living on their own  
Oh but baby don't wake up  
cause I like wearing this make-up  
Let me put it on ..  
Alone in the dark  
I can shine like a spark  
forgetting the world  
like I am someones lost ark  
There was a hole in the girl  
Where I could sit and pretend  
(chorus)
