

Gabrielle, Im So Glad

I like the way that
You carry yourself
I haven't seen that
In nobody else
When you walk in a room
It's all eyes on you baby
From head to toe
You look so good
Something about you
Shouts a command
Could it be the way you talk
Or the way that you stand
Some kind of magnet
Pulls me to you
I won't resist you no
Cos I don't think I could
If I could have my own way
I wouldn't need a whole day
If I could have my own way
I know that we'd go all the way
I like the way
You speak to me
Your sexy voice
Does things to me
Can't help but notice
The things you do baby
I hate to say it
But I'm hooked on you
I want to get closer
Closer to you
I wanna feel your love
Come flowing through
I wanna take over
Take over your heart
Forever together
Never apart
If I could have my own way
I wouldn't need a whole day
If I could have my own way
I know that we'd go all the way
