## Gabrielle, Mister Lonely

You said don't worry, we can still be friends but it's all over and we can't pretend You closed the door and turned off your lights left me standing alone on that, cold dark night

Oh I'm Mister Lonely now that were apart I'm Mister Lonely holdin' my broken heart Some people say I'm a love sick fool and for all I know that maybe true Oh I'm Mister Lonely Now that there's no, you

No, I didn't get, a Dear John letter You thought, face to face would be better (yes you did) and tellin' me, you didn't wanna be my girl

Well that made me feel like, the lonelie

(repeat chorus)

Oh, what am I, gonna do now that there's no you I haven't got a clue now that there's no you

(repeat chorus)
