

# Gabrielle, Survive

V-1

I don't wanna talk about it  
It makes me wanna cry  
every time i pour out my emotions  
I feel emptier inside  
I don't know how to play it like  
I'm not in love with you,  
but I'll try  
even though i do...still

(Chorus)

Miss you  
just like the air that I breathe  
I need you  
with me  
I'm not gonna lie  
I can't imagine my life  
with out you but I  
suppose I will survive

V-2

I'm not gonna play myself  
every time my cell rings  
checkin for your name  
I promise that I'll never tell  
you how I feel  
and I know that you don't feel the same  
did you think that you could hurt me so

I just gotta let you go  
everytime i find myself alone  
ooooh i

(Chorus)

(bridge)

Don't try to explain  
why your love's changed  
boy you really broke my heart this time  
i won't let it take away my pride  
or Who I have inside  
boy i'm so torn between every thing  
how could i feel nothing  
i woulda done anything  
if it would mean  
i could make you love me  
you're the one i need  
but you still believe  
we can never be...

And i miss you  
More than the air that I breathe  
I need you  
with me  
I'm not gonna lie  
And I can't imagine myself  
with out you but I  
suppose I will survive
