Kaze no naka ni mau waraiu koe
Kirameku yuuhi wa asu he no yakusoku

Tsuki ga utsushidasu kimi wo mitsuketa
Iroaseta toki no utakata no yume

Modora nai yasuragi sae
Nandomo kowasarete yuku
Afureru nikushimi ga
Kono sora wo yakitsukushite...

Mori no zawameki wa yasashii utagoe
Honno wazuka no shiawase na yume

Kogoeru itami ni sae
Yasashisa wo oboete yuku

Subete wo keseru nara
Kokoro sae mou ira nai
ASH...

Tada hageshiku moeru
Kono karada de yokereba
Kimi no tame ni subete sasageyou
Kono kanashimi dake wa
Kesshite wasurenu you ni
Namida no ato wo NAIFU de
Nandomo nazotta

Akatsuki no sora ni ukabu kagerou
Hohoemu kimi ga boku no soba ni ita

<lyrics>
The voices laughing together
Drifting in the wind
The glittering setting sun is a promise for tomorrow

I found you
By the light of the moon
The fading dream of a time that's lost its lustre

Even the peace which will never be again,
Is ruined again and again

The hatred welling up within burns out this sky...

The murmurs of the forest are a gently singing voice.
A dream that brings just a tiny bit of happiness.

Even through this freezing pain, i learned about kindness
If i could make it all go away, i'd have no use for this heart
Ash

If this body merely burning out of control for you is enough,
I'd give it all to you,
So that i never forget this sadness,
I traced the lines of my tears over and over again with a knife.

In the warped air of the dawn,
You were there, by my side.
