

# Galactic Cowboys, Internalize

More and more you're lookin' in  
Play the game and never win  
More and more I push inside  
The negative and let it slide away

All the pain I fear in life  
Becoming petrified...I internalize

More and more I feel the hand  
Helping me to understand  
more and more I wage a war  
Fighting in the very core of me

All the pain I fear in life  
Become petrified...I internalize  
Locked away and try to hide  
Never more the wise...I internalize

Sorrow needs a place to go  
See the me you'll never know
