

# Galactic Cowboys, Puppet Show

Right this way and don't be shy  
You're not gonna believe your eyes  
An apple we can over-hype  
A little green and way too ripe.

Dancin' little freaks of mine  
Helpless bouncin' on the twine.

Right this way come on let's go  
Step up to the Puppet Show  
Amazing feats of mind control.

Watch my toys I treat them nice  
Strap your freedom in a vice

Dreams come true I seal your fate  
Geppetto will intimidate.

And it may look funny  
Well look at me  
And it may sound funny  
But set me free.

I can't live in this box anymore.
