

# Galantis, Lighter - feat. David Guetta, 5 Seconds

We're paper planes in the sky  
drifting where the wind blows  
Yeah Gravity held me tight  
But with you i can let go

I know i know  
When i'm hollow hollow  
You take it all away and  
Fill the empty spaces  
Dont know dont know  
Bout tomorrow, 'morrow  
But i know that today

I feel a little bit lighter  
When the world's heavy as stone  
And the colors shine a bit brighter  
When i'm with you  
Wherever we go  
The cold ain't so cold  
As long as you're close  
I thought you should know  
I feel a little bit lighter when i'm with you  
When I'm with you

The tide can pull us away  
Don't matter where we are  
Cause when you're inches away  
Heaven's never that far

I know i know  
When i'm hollow hollow  
You take it all away and  
Fill the empty spaces  
Dont know dont know  
Bout tomorrow, 'morrow  
But i know that today

I feel a little bit lighter  
When the world's heavy as stone  
And the colors shine a bit brighter  
When i'm with you  
Wherever we go  
The cold ain't so cold  
As long as you're close  
I thought you should know  
I feel a little bit lighter when i'm with you  
When I'm with you
