

# Gamma Ray, Rising Star / Shine On

We drive, we drive, we're riding on through the universe

We've come to reach our destination planet earth

We come, we run, you cannot see us, flying in our spaceships, shooting  
cross the sky

We explore and we all know what this is about for us all

So many light years we have travelled far from home

Someday we'll be there I know

Shine on rising star

We travelled such a long way

But still you seem so far

Shine on, Rising star for our belief in unity at heart

Rising Star

Come on and shine

Living was torture and dying release

A declining world, no future, no hope

We were passing the point of no return

So many light years, still we travel on and on

And someday we will call you home

Shine on, Rising Star

Diamond in the distance, still you seem so far

Shine on, Rising Star

Forever light the darkness in our hearts

Rising Star, Rising Star

Salvation,

Damnation

We crawl across the sky with pain

Forever we will fly

Out in the darkness

There's a never ending light

[ Solo: Both ]

Still we are far away

But we'll be there one day

Someday we will call you home

Shine on, Rising Star

We travelled such a long way but still you seem so far

Shine on, Rising Star

Forever light the darkness in our hearts

Rising Star, Rising Star

Shadows in the darkness, so far away from home

Standing all alone, noone there beside me

Shadows all around, so far away from home

I know I'm not alone, It seems we're lost in space and time

Shine on

Shine on now, and warm the tears we've shed through years

It's our prison, final reason for the freedom and the glory that we feel

Are you for real ?

Shine on, Rising Star

Diamond in the distance

Still you seem so far

Shine on, Rising Star

Forever light the darkness in our hearts

Rising Star, Rising Star

Shine on, Rising Star

Come on and shine for us

Shine on, shine forever more

Shine on,

Our survival

Rising Star, the last chance for us all

The only hope for our future and a home

For us all

For us all

Come on and shine, Rising Star
