

Ganggajang, 24 Hours A Night

It's a temporary world in which we live
The cycle continues we take and we give
As the tone of our connections resonate on

I remember your voice whispering 'it's alright'
It eased away my pain and all my fright
Through another lifetime, I'll carry you on

You'll be walking, you'll always be walking by my side
And the strength of you will stay with me
24 hours a night

It's hard to find the words with which to span
This bridging of a lifeline, from boy to man
But somewhere on his journey, I know
I'll see you again

You'll be walking, you'll always be walking by his side
And the words I heard will stay with him
24 hours a night

Yes we'll be walking,
We'll always be walking by his side
And the love we shared will stay with him
24 hours a night
