

# Ganggajang, 24 Hours A Night

It's a temporary world in which we live  
The cycle continues we take and we give  
As the tone of our connections resonate on

I remember your voice whispering 'it's alright'  
It eased away my pain and all my fright  
Through another lifetime, I'll carry you on

You'll be walking, you'll always be walking by my side  
And the strength of you will stay with me  
24 hours a night

It's hard to find the words with which to span  
This bridging of a lifeline, from boy to man  
But somewhere on his journey, I know  
I'll see you again

You'll be walking, you'll always be walking by his side  
And the words I heard will stay with him  
24 hours a night

Yes we'll be walking,  
We'll always be walking by his side  
And the love we shared will stay with him  
24 hours a night
