

Garbage, Untouchable

This is nothing new to me
It takes more than what you've got
To frighten me
I'm not scared of you
There's nothing you can do
Or take from me

CHORUS:

Untouchable
You think you're untouchable
You know
No one's untouchable

You're bound to lose the game
There's no one else to blame
You play so safe
And you're not risking enough
You are doomed to be undone
I swear I'll be the one
To bring you down

It's all your fault
Cause you got caught

CHORUS:

It must be nice
To be so sure
And never feel insecure
It must feel good to believe
You're always right
And you're never wrong

You've got something to say
You say it to my face
And be a man about it
You got a problem with me
Don't go behind my back
Just like a baby

Untouchable (pride comes before)
You think you're untouchable (you take a fall)
You know (you best beware)
No one's untouchable (your woman's gone)
Untouchable (pride comes before)
You think you're untouchable (you take a fall)
You know (you best beware)
No one's untouchable (your woman's gone)
No one's untouchable
You think you're untouchable
You know, no one's untouchable
No one's untouchable (4 X)
