

# Garbage, Use Me

Use me  
I'm beautiful  
Take me  
I'm yours  
Hurt me  
It feels like medicine  
And all i deserve

People have funny things  
Swimming inside  
They swing like pendulums  
That turn like the tides

Darling  
I don't need money  
I could be happy  
With someone to love

Oh what a crazy time  
I've been a fool  
On a wild ride to oblivion  
I lost my mind

But with you it's understood  
You make me feel strong  
Your arms look so powerful  
When they hold me down

Darling  
I don't need money  
I could be happy  
With someone to love

Everyone looks dangerous  
And noone keeps their promises  
And i am always running  
And you have your dark places

Regretting  
Feeling  
Remembering  
Something  
We never said (regretting)  
We wish we said (something)  
We should have said (regretting)  
We could have said (something)

Truly  
I don't need money  
Or strangers to love me  
Or diamonds and pearls  
Or fast cars

Designed for the rock stars  
I could be happy  
With someone to trust  
Someone to love  
Someone to trust

Use me  
I'm beautiful  
Take me  
I'm yours
