

# Gardenian, Powertool

Open the cap fill up the batteries  
Play the game of your life  
It's starting to shake  
It's ready for you to control  
Your flesh starts to sweat  
The feeling you need to let go  
Just do your thing lose all  
the tension and flow

Powertool forever young  
forever, forever young  
Powertool when we're in bloom  
when we're in bloom

Feeling the one handed love  
As the best you've ever had  
Wiping your mouth and getting  
Ready to start again  
When your body is shaking  
And your sight turns black  
You will know that you've found me  
The mighty powertool

Powertool forever young  
forever, forever young  
Powertool when we're in bloom  
when we're in bloom
