

Gareth Gates, It Ain't Obvious

I keep tryin'
But I'm running out of ways
To make you want me baby
How can i be everything you want
You drive me crazy
You're never satisfied

If It's not even worth a try
Time's out for makin up your mind
Maybe we'll never see eye to eye

Chorus
So treat me cruel to be kind
Let's play it straight down on the line
I'm sure you wanna be mine
But it ain't obvious
Why can't you just let it be
What would you have me believe
I'm sure you really want me
But it ain't obvious

Why don't you
Put a little trust in me
And let it go
If you don't have a chance how
will you ever know
Baby I'm on your side

Have i been foolish all along
Have you been leading me on
Just walk away if this ain't where
You belong

So treat me cruel to be kind
Let's play it straight down on the line
I'm sure you wanna be mine
But it ain't obvious
Why can't you just let it be
What would you have me believe
I'm sure you really want me
But it ain't obvious

C'mon won't you be with me
What would you have me believe
C'mon won't you be with me

If it's not even worth a try
Time's out for makin up your mind
Maybe we'll never see eye to eye

So treat me cruel to be kind
Let's play it straight down on the line
I'm sure you wanna be mine
But it ain't obvious
Why can't you just let it be
What would you have me believe
I'm sure you really want me
But it ain't obvious

But it ain't obvious...
