

Gareth Gates, Soul Affection

Most of the time, love has gone wrong
So hard to get it right
I'm so afraid 'cos I'm feeling it strong
We could lose it overnight
I need to know where just where I stand
Don't make me open up again
And if you're gonna stay around
Don't let me down

Chorus
Give me your soul affection
Give me the part that's always true
Give to my heart protection
My mission in life is you

Give me your soul affection
Don't keep your love from me taboo
Bring out the best emotion
My mission in life is you

I realise 'perfect' ain't fair
But I must have expectations
As soon as you show you really care
There will be no hesitation

Don't make promises that you can't keep
Don't want you holding back on me
And if you're game stay around
Don't let me down

It's just a matter of time
I believe what you say
If I'm coming round
'Cos I know there's a way
To the end of the world is as long as we'll last
Remember no beginning, forget about the past

Chorus to fade

:-)
