Garou, Back For More

It feels like this thing had just begun We caught then sun on the rise Tasted a sweetness yet to come I saw my life in your eyes And I can't let it go Tried to close down the show If I said that I've moved on Baby inside I know I will be waiting here for you With my heart like an open door Shouldn't believe it but I do That you will come back for more When I see your beauty in the crowd I wish that I could explain Just find the words to tell you how My love is wearing your name And I can't let you go Tried to close down the show If I said that I've moved on Baby inside I know I won't turn out the lights If you were to ­­&top on by I'll keep a place in my life Where dreams never die
