

# Garth Brooks, One Night A Day

There's not a lot of things to do  
I wouldn't rather do with you  
Guess I'm funny that way

Lately I just sit and stare  
Talk to people who aren't there  
To get through one night a day

One night a day  
One step away  
From leaving you behind

I sit up with the radio  
Sing along with the ones I know  
To get through one night a day

One night a day  
One step away  
From leaving you behind

I'm callin' every friend I've had  
Wake 'em up and make 'em mad  
Let 'em know that I'm ok

I used to sit and talk to you  
They're all just a substitute  
To get through one night a day

One night a day  
One step away  
From leaving you behind

I stay up with the late, late show  
Just another way I know  
To get through one night a day  
To get through one night a day
