

# Garth Brooks, Something With A Ring To It

(Chorus)

She wants something with a ring to it  
Like a church bell makes  
Like a pretty white gown to wear  
And some vows to take  
She want's something with a ring to it  
I think I understand  
Gonna' have to put a ring on her finger  
If I'm gonna' be her man

My baby's playin' hard to please  
And I think I figured out  
What it is she want's from me  
Cause when I hold her close  
When we go out at night  
I can hardly see the moonlight  
From the diamonds in her eyes

(Repeat Chorus)

My baby did but now she don't  
And if I don't say I do  
It's a safe bet that she won't  
Love me like she used to  
When our love began  
Now the only way to change her tune  
Is with a wedding band

(Repeat Chorus)
