

# Gary Allan, Don't Look Away

Desperation's causin' me  
To question every single word you say  
The distance that keeps growin'  
In between us, girl, just leaves me so afraid  
Well, you tried so hard to carry on  
But I can tell there's somethin' wrong these days  
Well girl, I've gotta know the truth  
Just give it to me straight, don't look away

Chorus:  
Don't look away  
Don't look away  
When I ask you if you love me still  
And if you're gonna stay  
Don't look away

Well, I've known you long enough to know  
Your tryin not to let your feelins' show  
Lately when i hold you near i still feel I'm sittin here alone  
Well, I still feel I'm sittin' here alone  
This confusion settin' in your mind  
Blockin' all the words you mean to say  
Well girl, I've gotta know the truth  
Just give it to me straight, don't look away

"Repeat Chorus"

Don't look away  
Don't look away

Well girl, I've gotta know the truth  
Just give it to me straight, don't look away  
When I ask you if you love me still  
And if you're gonna stay  
Don't look away
