

# Gary Allan, Send Back My Heart

By now I really should be over you  
But I might as well just give up tryin'  
You've got what's missin' deep inside of me  
And I want it back, girl you know it's mine

Chorus

Send back my heart if you don't want it  
Send back my heart girl, the one you stole away  
You've made it plain, your names not on it  
So don't put me through one more blue and lonely day  
Send back my heart

I've found somebody else who wants my love  
But I can't give her what she needs  
The very thing she's wantin' still ain't mine to give  
So won't you let it go, please baby please  
I've tried to forget you girl just like you told me to  
But baby that's impossible, so now it's up to you
