

Gary Barlow, I Miss It All

I miss all, all your love
Oh, yeah yeah
I miss all, all this now
I think that I've found the truth
I think love is no more
But explaining love made its move
Said goodbye and walked through my door

I miss pain
I miss hope
I miss change now you're gone
I miss all, all your love

I miss days
I miss nights
Making up when, when we fight
I miss all, all this now

The lonely sky never seem so grey
It's been grey for so long
So God forgive me, I never used to pray
I've prayed every night girl, since you've been gone

All you said and all you did
It's all the loving that I miss
Can know your love and all the hate
But give it up this huge mistake
But that's explaining love it made it's move
Said goodbye and walked through my door
