

# Gary Jules, Owen Down

Baby I would smash your pretty face just to make you feel one and  
Take your body along my throat to show how much I care  
Guitar on my bed where your body's supposed to be  
If I could turn you inside out and swallow you down

Down, down, down, down, down  
Down, down, down, down, down

Baby I would carve your name in my arm  
Cut my skin to let you under  
And if you promise not to leave  
I might let you outside

She is all around me now  
If I could turn her inside out  
And swallow her down

Down, down, down, down, down  
Throw me a line  
You know I'm bound to drown

And do you need me tonight  
You know you've seen me around  
We go down, down, down, down, down
