Gary Moore, Take A Little Time

I know the reason You turn your back On things that you don't wanna hear I know this feelin' I get from you When you try to act so sincere

But I don't know What's making you behave this way I'm gonna go You never hear a word I say You better learn to

Take a little time To show me that you care for me Take a little time To show me you're still there for me

I know the danger You're holding all the cards Because you think I'll wait You're like a stranger You better show your hand Before it gets too late

But I don't know What's making you behave this way I'm gonna go I might as well just walk away If you don't learn to

Take a little time To show me that you care for me You gotta take a little time To show me you're still there for me You better take a little time To show me what's been going on It's been like this for much too long Take a little time

Don't hand me all these lines My eyes are open wide now Don't give me all your lies I'm gettin' much too wise for you Take a little time

But I don't know What's making you behave this way You never hear a word I say I might as well just walk away If you don't learn to

Take a little time To show me that you care for me You better take a little time To show me you're still there for me You gotta take a little time To show me what's been going on It's been like this for much too long Take a little time

You gotta take a little time I'm tellin' you You gotta take a little Take a little time Take a little time Take a little Take a little

You gotta take a little Take a little You gotta take a little Take a little time

I'm tellin' you Take a little Take a little time

Take a little Take a little time
