

Gary Moore, Texas Strut

One-two-three-four
Let me tell you about the Texas blues

I went down south to Dallas
To hear those cowboys wail
Came across that Billy Gibbons
Ridin' on that ZZ trail

I just can't lose with the Texas blues
I said I just can't lose with the Texas blues
The Texas blues

Got myself in Double Trouble
When I saw that Texas Flood
Stevie said The Sky Is Crying
Superstition's in his blood

I just can't lose with the Texas blues
I said I just can't lose with the Texas blues
The Texas blues
How-how-how-how

Come on!

I heard that Houston Twister
He could run you off the tracks
When he plays that Cold Cold Feeling
You get the shivers down your back

I just can't lose with the Texas blues
I said I just can't lose with the Texas blues
The Texas blues
A-how-how-how-how

Well, I'm going back to Dallas
Won't go waitin' for no bus
Ridin' off into the sunset
You won't see my heels for dust

I just can't lose with the Texas blues
I said I just can't lose with the Texas blues
I said I just can't lose with the Texas blues
And I just can't lose with the Texas blues
The Texas blues
Texas blues
A-how-how-how-how
