

Gary Moore, We Want Love

(Gary Moore)

The same with all the human race
Nothing can take it's place
We want loving
We want love

Every woman, everyman
Trying to do the best they can
They want lovin
They want lovin

Every body on this earth
Trying to find out what there worth
They want lovin
They want love

Every woman, everyman
Trying to do the best they can
They want lovin
They want lovin

They want lovin
They want lovin

Everybody on this earth
Trying to find out what there worth
They want lovin
They want love

The same with all the human race
Nothing to take it's place
They want loving
They want love

They want loving
We want love

Repeat
