I've never been so scared of letting you down.

You know me, so come closer
You know me, so come closer
Party time, one more town, everybody's affected.

I know you, you don't need me
I know you, you don't need me
Party time, one more girl, everybody's affected

I'd lie to God if I could make him believe.

You owe me, and I need you
You owe me, and I need you
Party time, one more game, everybody's affected

This is my confession
This is my confession
Party time, one more lie, everybody's affected
