

Gary Numan, Devious

I remember one girl
Saw her again in a magazine
Front cover, big star
Showing things that I'd never seen
Well maybe

Can you feel it? Can you?

I remember one girl
Who'd believe she'd be so devious
Bad decision, bad move
She told the papers everything
Well maybe

Do you need it, do you?
Do you want it, do you?
Come and get it

I remember one girl
She'd only make friends in expensive cars
Television, good wine
Leather seats and a friend of mine
Well maybe

Something's coming
Oh no
