

# Gary Numan, Heart

Does she make you laugh?  
Does she make you cry?  
Does she call your name?  
Let me tell you why.

Have you ever tried to look into her eyes?  
Have you ever tried to look into her heart?

There is no-one home.  
Time will heal you  
Time heals everything  
Just an empty room.  
Time will help you  
Time helps you forget  
There's no tears for you.  
Time will heal you  
Time heals everyone  
There's no heart at all.  
Time will help you  
Time helps you forget me.

She will change your world.  
She will change your mind.  
She will change your rules.  
She will make you blind.

You will never try to look into her eyes.  
You will never try to look into her heart.

See there's no-one home.  
Time will heal you  
Time heals everything  
See an empty room.  
Time will help you  
Time helps you forget  
See no tears for you.  
Time will heal you  
Time heals everyone  
See no heart at all.  
Time will help you  
Time helps you forget me.

I'll leave you  
You'll try to forget.  
I'll haunt you.  
Like someone haunts me.  
I'll leave you.  
You'll try to forgive.  
I'll haunt you.  
Like someone haunts me.

Does she laugh at you  
Like she laughed at me?  
Does she break your heart  
Like she broke mine?
