Gary Numan, Metal

We're in the building where they make us grow And I'm frightened by the liquid engineers Like you

My Mallory heart is sure to fail I could crawl around the floor just like I'm real Like you

The sound of metal I want to be you I should learn to be a man Like you

Plug me in And turn me on Oh, everything is moving

I need my treatment it's tomorrow they send me Singing I am an American Do you?

Picture this, if I could make the change I'd love to pull the wires from the wall Did you?

And who are you And how can I try Here inside I like metal Don't you

All I know Is no one dies I'm still confusing love with need
