

# Gary Numan, Remember I Was Vapour

There's nothing here but us  
There's nothing here but us

Remember, I was vapour  
Remember, I was just like you  
Remember, I was liquid  
Remember, I was someone too

Remember, I need others  
Remember, I need oxygen  
Remember, I need lovers  
Remember, I need to forget

Chorus

Remember, I am human  
Remember, I feel just like you  
Remember, I had reasons  
Remember, I had friends like you

Remember, I grow tired  
Remember, I could end all this  
Remember, I have memories  
Remember, I need to forget
