Gary Numan, We Are Glass (Transmutator Mix)

We are young we can break Watch us fall We can take some train Down to the sea We are glass, we are glass

We are real you can touch Just for now And I say 'Hey you which way is down?' We are glass, we are glass

We are strong We're unknown We have time And to you I'm just one of those boys We are glass, we are glass

We are cold We're not supposed to cry But it's all just a thought so Here am I We are glass, we are glass

They run fast impressions Of the floors inviting Stay with me, stay with me They run past with telephones They scream Well would you Turn all this down Turn all this down

You are replaced You are you And now dreams are real And dreams are all we need We are glass, we are glass

They run fast impressions Of the floors inviting Stay with me, stay with me They run past with telephones They scream Well would you Turn all this down Turn all this down
