

Gas Giants, I Hope My Kids Like Marilyn Manson

Im not the only one to live in chains
It looked so easy when you sold us all the way
I hope my kids like Marilyn Manson
Im not the only one to live in pain
Its not the devil come to drive us all insane
I hope my kids like Marilyn Manson

Youre living proof that all the meek will rule
I dream your videos in every public school
Was fun and easy when you sold your soul
No ones accusing you of falling short of your goal
I hope my kids like Marilyn Manson

In Mississippi where your plan unfurled
Within a decade youll be ruling all the world
I hope my kids like Marilyn Manson
Was fun and easy when you sold your soul
No ones accusing you of falling short of your goal
I hope my kids like Marilyn Manson

Im not complaining having been your tool
But now Ive gotten all I want and need from you
All the children like their good clean fun
They know your records gonna show them how its done
I hope my kids like Marilyn Manson...
