

Gas Giants, Tonight Won't Let Me Wander

I thought the river was safe for now
I could never think like you
Seem like derailing a train of thought
Is impossible to do
Each little image a runaway car

I've got one more frame, one more frame to choose
Tonight won't let me wander far from you
If I do
Tonight won't let me wander far from you

I've been sinking in knee deep tar
Now its sticking in my shoes
Dreaming it's over and all right now
Feels beautifully untrue
If the kids going over the bridge look down

They could see me here, see me here, see me here confused
Tonight won't let me wander far from you
If I do...
Tonight won't let me wander far from you
If I do...
Tonight won't let me wander far from you
If I do...
Tonight won't let me wander far from you

Filling it over with stinking ground
I can see it in my head
Leaches and lovers all six feet down
And they're always playing dead
We can't see to the surface so help me out

I've got one more try, one more try, one more try, one more try or two
Tonight won't let me wander far from you
If I do...
Tonight won't let me wander far from you
If I do...
Tonight won't let me wander far from you
If I do...
Tonight won't let me wander far, wander far, wander far from you
