

Gathania, Get it out

We gone do it to now, Gone get it out, late it now.. Ouu!
You think at time a part, it's the problem
And I like you, when you not around
You got you steady hard, and you reason
And I hated when I'm on the ground
A know it hurts, but the pain is true
I've been died, sins you came around
We never learn, we always loose..
We gone do it to now, gonna get it out, late it now
We gone do it tonight, gonna get it out, late it now
You know, You gone hate me tomorrow
But tonight I'm gonna be all right
Just let me feel you heart, up and sorrow
Cause it's better than a runnin life
A know it burns, but the fire is good
You and me, would drift to way the cloud
I know it hurts, more than it's true..
We gone do it to now, gonna get it out, late it now
We gone do it tonight, gonna get it out, late it now
We gone do it tonight, Uuu..
We gone do it tonight, Uuu..
Now, I gonna lead you down...
Can get it together, will never be better..
Can get it together, will never, my lover.
Can get it together, will never be better..
Can get it together, will never, my lover.
We gone do it to now, gonna get it out, late it now
We gone do it tonight, gonna get it out, late it now
We gone do it tonight, Uuu..
We gone do it tonight, Uuu..
..We gone do it tonight !
