

Gavin Friday & The Man Seezer, Wind & Rain

Wind & rain. ice and snow
Winter kills we stay together
Wind & rain. ice and snow
Someone speaks we wake up crying

Push aside those who whisper
Never
For our love will last forever

The trees are bare. no birds sing
I want to tell you everything
The ice is cold. the winter rain
Seasons change- we remain

Push aside those who whisper
Never
For our love will last forever

Hold me closer- kill the distance
Tell me everything
Hold me closer- kill the distance
I want to tell you everything

Push aside those who whisper
Never
For our love will last forever

Hold me closer- kill the distance
Tell me everything
Hold me closer- kill the distance
Tell me everything

I know
I know our love will last forever
