

GAYLE, i don't sleep as good as i used to

i rolled my first joint on a bible made for kids
said the dinosaurs died for all our sins
that's when it hit
that the worlds full of shit
so i held in my hit till i was cool with it

i don't like the time of night when i'm supposed to close my eyes

i don't sleep as good as i used to
melatonin don't shoot shit
fever dreaming of patience i'm awake every night
i don't sleep as good as i used to
i can't even watch television
i don't get it
the world live in
keeps me up at night

maybe i just drink too much caffeine
or maybe when you're growing up your lungs forget to breathe
maybe i'm a product of divorce and the economy
but either way it doesn't help me dream

how i'm supposed to live my life when everybodys born to die

i don't sleep as good as i used to
melatonin don't shoot shit
fever dreaming of patience i'm awake every night
i don't sleep as good as i used to
i can't even watch television
i don't get it
the world live in
keeps me up at night

everytime that i close my eyes
i can't get no fucking peace
is there something wrong with me
what the fucks wrong with me
