Gene Clark, Boston

Spoke to my girl on the phone t'other day She said she wish I'd come there right away In Boston Massachusetts where she lives Got to get there for the love she gives

Catch a plane and soon I will be gone And I'Il be in her arms before too long In Boston Massachusetts she'Il be there And we'Il be together everywhere

You see I'm leaving cause I'm sad Got a girl and I want to see her bad You see I'm not leaving 'cause of you I just can't stand to sit here feeling blue

Can't go on when I don't like this town I feel so bad not having her around In Boston Massachusetts where she lives Got to get there for the love she gives
