

Gene, Gene-Police Will Never Find Ya

I got a message here for ya
cos ya hurt me too much
your face is my canvas
and a stanley my brush
you wont forget me in a rush
do you have someone with you?
cos you never know when
your face will be paper
and a stanley me pen
youlle never see that girl again
Ive been down for too long
but is power so wrong?
the balance is slowly moving
I now know where you belong
and soon youlle be gone
the police will never find ya
theres a noteon the forecourt??
cos you hurt me too much
those knee caps look tender
is a hammer enough?
ah! you wont forget me in a rush
so I've been down for too long
but is power so wrong?
the balances are slowly moving
and I now know where you belong
and soon youlle be gone
the police will never find ya
I've been under too long
but my intent is strong
the balances are slowly shifting
I now know where you reside
and I know where to hide
police will never find ya
