

# Genesis, One-Eyed Hound

(Banks/Gabriel)

Mister you've been caught at last  
Chasing dogs in the moonlight  
This man committed a sin  
This man he never can win  
Mister you've got one more chance  
If you catch the hound when the sun shines  
This man committed a sin  
This man he never can win

And it's all gone wrong  
Night is the time for chasing the one-eyed hound  
And it's all been tried before  
Night is the time for chasing the one-eyed hound

Have you seen the one-eyed hound?  
Tell me where he's going  
This man committed a sin  
This man he never can win  
Every place that I have been  
No-one else has seen him  
This man committed a sin  
This man he never can win

And it's all gone wrong  
Night is the time for chasing the one-eyed hound  
And it's all been tried before  
Night is the time for chasing the one-eyed hound

Everybody's telling me exactly where to go  
This man committed a sin  
This man he never can win  
People call and people talk  
But they don't reach agreement  
This man committed a sin  
This man he never can win

And it's all gone wrong  
Night is the time for chasing the one-eyed hound  
And it's all been tried before  
Night is the time for chasing the one-eyed hound  
Night is the time for chasing the one-eyed hound
