

Gentleman, Things Will Be Greater

Yesterday I took a walk down the Lane
Me see so many people a cry
and everything just remain the same
No matter how hard them a try
After the effort the result is less than the money can buy
Some even send a letter to the government
A no get no reply

Just hold on to later
Things will be greater
Blessings a go fall like manner from the sky
I and i say later
Go on and hold the faith ya
All you got to do is keep your head up high
Hold on to later
Things will be greater
Blessings a go fall like manner from the sky
I and i say later
Go on and hold the faith ya
All you got to do is keep your head up high

Know yourself when you reach the the gate
Because you might have to start again
Dissapointed that you have to wait
But don t take it to heart me friend
We nuh go make it out if we dialing the same code
Remember how we trod this ya rocky road

Just hold on to later
Things will be greater
Blessings a go fall like manner from the sky
I and i say later
Go on and hold the faith ya
All you got to do is keep your head up high
Hold on to later
Things will be greater
Blessings a go fall like manner from the sky
I and i say later
Go on and hold the faith ya
All you got to do is keep your head up high

Some people lookin for a leader
What dem hand down to them with social media
Everyone free to do as them like
But don't let the system wrong you right
Now a subject of wikipedia
Algorithm one a the greatest mind leader
Elephant a trample the mice
Think twice

Just hold on to later
Things will be greater
Blessings a go fall like manner from the sky
I and i say later
Go on and hold the faith ya
All you got to do is keep your head up high
Hold on to later
Things will be greater
Blessings a go fall like manner from the sky
I and i say later
Go on and hold the faith ya
All you got to do is keep your head up high
